WINDOW CHANNEL KITS

These kits are exact replacements of originals and include everything you need to do two front or rear doors or two rear quarter windows. Upper window seal and window seal adhesive and screws and door clips are provided in the appropriate kits. Door-to-glass bumpers, which fit into holes in door and garnish molding, are supplied also. 1934 to 1936 cars came with either front and center inside window handles. Use the appropriate kit (marked with a "C" or an "F" at the end of the part number). All 1937-1939 kits are provided with screws to mount one-sided felt to doors and garnish moldings. Due to the high costs of the original 1937-1939 style clips, a separate clip kit has been made for these years. It consists of 35 original-style punch-in clips and 35 original-style snap-on clips used on the garnish moldings, enough to do two doors or two rear quarters.

COUPE AND SEDAN FRONT DOOR WINDOW KITS

B-45983-3W	1932 3-window coupe	\$100.00
B-45983-5W	1932 5-window coupe	\$100.00
